

Bhuvaneshwar Mamilla

Analyst

 bhuvaneshwarmamilla@gmail.com  8919455972  Hyderabad, India  Bhuvaneshwar07

Profile

Analytic and Detail-oriented business analyst with hands-on experience in data analysis, requirements gathering, and improvement of business processes. Proficient in Excel, Power BI, and Tableau, with strong communication and stakeholder management skills. Adaptive to identify trends, optimize workflows and translate complex data into clear actionable insights. Passionate about leveraging data to support strategic decision making, enhance operational efficiency, and drive continuous improvement across business functions

Professional Experience

Data Analyst, Sfour Esolutions 12/2025 – 06/2026

- Analyzed business requirements and translated them into functional specifications for project execution.
- Performed data analysis, report generation, and documentation to support business operations and decision making.
- Collaborated with development, QA, and cross-functional teams to ensure smooth project workflows and timely delivery.
- Tracked project progress, identified issues, and coordinated resolutions to maintain operational efficiency.
- Prepared and maintained functional documents, process records, and project-related documentation.
- Assisted in gathering, analyzing, and documenting client requirements to support successful project implementation.
- Utilized Microsoft Excel and reporting tools to create dashboards, reports, and data-driven insights.
- Participated in project status meetings, progress reviews, and continuous process improvement initiatives.
- Supported testing activities, defect tracking, and validation of business requirements.
- Contributed to improving workflow efficiency through process analysis and operational support.

Business Analyst Intern, AI Variant 09/2024 – 07/2025

- Cleaned, transformed, and validated data from multiple sources to ensure accuracy and consistency.
- Conducted data analysis to identify trends and generate actionable insights.
- Automated reports using Excel, Power Query, and DAX to improve efficiency and reduce manual effort.
- Developed interactive dashboards and visualizations using Power BI and Tableau to support business reporting and decision-making.
